### **1) Please introduce yourself.**

Ans: Hello everyone. I would like to thank everyone for providing me this opportunity to join this interview. My name is Lim Ethan, currently 18 years old. I'm from Melaka, coming from a family of 5, my parents and 2 younger sisters of mine. My hobbies include fencing, listening to music, singing and problem solving. I would say I excel in both academics and sports Achieving High Distinction award for the International Chemistry Quiz Award organized by the Royal Australian Chemical Institute. Besides, Achieving Distinction in Kuiz Kimia Kebangsaan Malaysia consecutive for 2 years which is 2022 and 2023 Kangaroo Mathematics and Kancil Science competition, silver bronze awards Champion award for Innovative Robotic Championship Competition Champion award for Olympiad Maths Competition at UTEM Got into Semi-Final in SUKMA fencing Competition 2022 Ranked 29 in Malaysia Open Fencing Competition Champion for State level epee fencing competition

### **2) Why do you want this scholarship?**

Ans: First of all, in order to pursue further studies, I would need a lump sum of money to do so. But unfortunately, my parents still have to fund 2 of my sister's studies in the future. I would not want to be a cold-blooded brother and take away all their opportunities to allow them to shine. I will have to depend on this scholarship and lessen my parents' burden for my future education. Secondly, I have my own aims and goals in life. By getting this scholarship I am able to obtain a foundation for my knowledge in order to achieve what I desire, which acts as a stepping stone for me to make a positive impact to the whole world. Thirdly, this scholarship will provide me with an excellent pathway in order for me to explore and learn more. By providing me the knowledge that is necessary, I am able to continue learning from others and keep on improving myself in order to reach the peak and create a legacy that I have been aiming for.

### **3) Why should we choose you? Why do you deserve this?**

Firstly, I have great leadership skills. During my secondary school, I was appointed as the Secretary for every club and society that I am involved in. For example, Prefectorial Board, Mathematics Club, St John Ambulance and Sports Club. The most challenging, yet the most exciting job for me is being the Secretary of the Prefectorial Board as with the name comes with great responsibility. My job as the Secretary is to be on stage in front of 1000 people every morning to make announcements and send back all the classes, sometimes being the emcee and organizing ceremonies and events and creating a duty list for all the prefects each week to ensure every inch of the school goes well in discipline. Secondly, I believe I uphold great communication skills. Guiding all the junior prefects was challenging but I enjoy it as looking at their performance fulfills me with joy and satisfaction as it means I executed my job well as a leader. This job truly elevated me by adapting, turning myself from an introvert to an extrovert, meanwhile not crossing boundaries and being respectful. Thirdly, I

have a strong will which drives me and keeps me going, not allowing me to give up in honor of my brother, Eason. Getting this scholarship will be a great pathway for me in order to further my studies, keeping up my consistency in studies and solve each and every problem that I encounter with all the knowledge that I have learnt. In conclusion, I truly believe that I am able to cope and adapt with everything that comes in my way and achieve success no matter what or how.
